

Mojdeh Khoshpoor

Product Designer

Munich, Germany · 0157 373 10115 · khoshpoor@web.de · [linkedin.com/in/mkhoshpoor](https://www.linkedin.com/in/mkhoshpoor)

Product Designer with 5+ years in B2B products, working on complex, data-heavy interfaces for professional users. I own products end to end, from research and concept through testing and release, and measure what each change actually did. Looking to grow into leading a design team and building the process that keeps one productive.

SKILLS

Design — Figma, Figma Make, Miro, Design Systems, Prototyping, AI-assisted design workflows

Research — Moderated Usability Testing, User Interviews, Workshop Facilitation, Information Architecture, Behavioural Analytics (Contentsquare)

Ways of working — Product ownership, design KPIs and impact measurement, agile squads, stakeholder alignment, iterative delivery

EXPERIENCE

Product Designer — Interhyp Gruppe, Munich

2022 – Present

- Rebuilt the workspace that mortgage advisors use all day, now serving tens of thousands of brokers nationwide; active users grew **~65%** in its first three months.
- Built the UX team's KPI framework, making the impact of every design and redesign measurable rather than arguable.
- Designed the in-house video consultation product that replaced a licensed tool, cutting annual spend **~80%**; consultations grew **~50%** month-on-month, with **86%** run camera-on.
- Designed a holiday-coverage feature that turned manual task handover into an automated **3-click** flow.
- Designed a B2B storefront and licence management from scratch for external brokers buying add-on services.
- Moderated **100+** user testing sessions and turned the findings into shipped fixes.
- Redesigned an external developer portal with a new information architecture and its first mobile version, and rebuilt an internal engineering tool.
- Facilitated a cross-team workshop that turned scattered feedback into prioritised problems and measurable KPIs for another team's roadmap.
- Brought AI tools into everyday design work to take time out of the UX process.

Working Student, Product Design — Interhyp Gruppe, Munich

2021 – 2022

- Assisted the senior UX designer across two teams, and handled maintenance design for existing products independently.
- Built the wireframes and prototypes for **3** new concepts.
- Master's thesis (graded **1.0**): proposed **6** collaboration features for brokers, advisors and mortgage customers, from concept through user testing to measuring success; **2** were later built into the live product.

Visual & UI Designer — Sishemi, Tehran

2019 – 2020

- Built the design systems for **5** products across mobile apps and websites.
- Designed the icon sets and graphic banners for those products, and did brand identity and logo work.

UX/UI Designer — The Innotech, Tehran

2018 – 2019

- Joined as a **3-month** intern, hired full time on performance; learned UX fundamentals across client projects.

EDUCATION

M.A. Interactive Media Systems

2020 – 2022

Technische Hochschule Augsburg · focus on user experience · thesis with Interhyp, graded 1.0

B.Sc. Industrial & Product Design

2014 – 2018

Iran University of Science and Technology
